## WORK EXPERIENCE

### Full Stack Web developer 2014 - Continue

#### Freelancer | Fiverr inc.

As a freelance full-stack web developer, I have successfully completed over 107 tasks with stellar 5-star ratings across the board. My expertise encompasses a diverse range of technologies including Laravel, HTML, CSS, JavaScript (Vue.js, jQuery, VanillaJS), and more. I specialize in modular-based Laravel development, proficiently handle caching, expertly manage servers, and excel in creating and consuming REST APIs. Additionally, I possess hands-on experience with cloud platforms like AWS and Digital Ocean, enabling me to seamlessly deploy and manage web applications. My track record reflects a commitment to delivering high-quality solutions while maintaining a strong reputation for excellence in the realm of web development.

## WORK EXPERIENCE

### ERP Lead Developer 2013 - Continue

#### Bangladesh Foundry & Works Ltd.

As the lead developer of a Construction ERP project, I successfully orchestrated the design and implementation of a comprehensive system that streamlined project management, resource allocation, and financial tracking. By leveraging cutting-edge technologies and fostering a collaborative team environment, I ensured the on-time delivery of the ERP solution, resulting in improved operational efficiency, cost savings, and enhanced decision-making for construction projects. My achievement lies in revolutionizing construction processes through innovative software solutions. An ISO Certified Company. Website: <http://www.bfew.net>

### Jr. Creative Web Developer 2012 - 2013

#### Softway IT Ltd

As a Jr. web developer, I was responsible for designing, coding, and maintaining websites, ensuring their functionality, responsiveness, and visual appeal. They collaborate with cross-functional teams to implement client requirements and best practices, delivering user-friendly and technically sound web experiences. BASIS Listed Company. Website: <http://www.softwayit.com>

## **EDUCATIONAL HISTORY**

### **Bachelor of Computer Science & Engineering**

The People's University of Bangladesh | 2016

The goal of this computer science & engineering education is to equip students with the theoretical knowledge, practical skills, and problem-solving abilities necessary to innovate, develop, and optimize technology solutions that address real-world challenges.

### **Diploma in Computer Engineering**

Sirajganj Politechnic Institute, Bangladesh | 2011

The goal of the Diploma in Computer Engineering is to equip students with the fundamental knowledge and practical skills needed to design, develop, and maintain computer systems and software, fostering a strong foundation for a successful career in the field of computer engineering.

## **PORTFOLIO & PROJECTS**

### **Construction ERP**

I have covered all the modules for construction ERP including project management, HRM, Accounts, Procurement, Supply chain management, Inventory, etc. That was an in-house ERP. It took around 9 years of maintenance to mature and satisfy that particular organization's requirement. Its current position is top ten worldwide for the construction ERP domain.

### **B2B CRM**

B2B WinWinCRM for startup companies including marketing and sales funnel. Mainly it covers location reports and territory-wise ME and SE access control and automation for incentives.

### **E-commerce**

I have developed & technically supported 5+ successful e-commerce companies. One of e-commerce was reverse type B2B marketplace. They are below, eSellerBazar, SirajganjShop(Unicorn startup), CycloneBazar, SebaExperss, Durbar, etc.

## **PORTFOLIO & PROJECTS**

### **SMS Server**

I have invented an IoT device including web applications and mobile apps. Hospitals, Ecommerce, and Super Shops are the main customers for this device. Which was published in daily newspapers. Daily Sokaler Somoy, Ajker Sirajganj (total 5).  
Published at: 2020-12-14

### **WEBSITE**

I have designed and developed 50+ website for hospital, clinic, educational institute etc, since 2014.

### **Software Agency CRM**

Developed a user-friendly task management CRM for software agencies, allowing team members to create tasks and assign them to agents. Incorporated AI capabilities for automated sub-task generation, enhancing workflow organization. Enabled real-time task tracking and progress monitoring, ensuring efficient communication and collaboration. Implemented prioritization and deadline management features for effective time management. Integrated communication tools for seamless team interaction, minimizing external dependencies. Provided comprehensive performance analytics to evaluate team productivity and task completion rates. Seamless integration with popular development tools like GitHub and Jira for streamlined workflow management. Customizable interface tailored to individual agency workflows and scalable to accommodate growing team and project sizes. Ensured robust data security and access control measures for the protection of sensitive information.

### **SOCIAL MEDIA**

Designed and implemented a dynamic social media platform facilitating users to showcase and market their products through interactive social and business posts. Integrated a user-friendly interface allowing seamless addition and management of diverse product portfolios. Incorporated a comprehensive social networking feature enabling users to connect, follow, and engage with each other's content. Implemented a robust 'save for later' functionality empowering users to curate personalized reading lists for future reference. Integrated interactive comment and like features, fostering engaging and interactive discussions among users. Ensured a smooth and efficient user experience through streamlined navigation and intuitive design. Designed to accommodate scalability and handle increased user activity, ensuring uninterrupted platform performance. Prioritized data security measures to safeguard user information and maintain privacy standards. Leveraged analytics tools to provide valuable insights into user engagement and content performance. Successfully deployed a versatile and feature-rich social media platform, fostering a vibrant and engaging online community.
